Important information on driver qualification cards and identification cards for special cargo assistance

The Danish Road Traffic Authority has become aware that, for a period after 31 January 2020 cards have been issued with incorrect information.

On the front of the card, in some cases, the first and last names have switched places. On the correct cards surname is given at the top as information number 1 and first name as information number 2.

In some cases, cards have also been issued where the holder's signature is blurred.

Holders of faulty cards will as soon as possible receive a new card.

Venlig hilsen

Claus Bruhn
Inspektør
